LASER TREATMENTS

IPL (Intense Pulse Light)

A non-invasive photo rejuvenation treatment that targets signs of photo-aging, brown spots, and unsightly small veins on the face, neck, chest, arms, and hands.

Active FX

A fractional laser treatment that stimulates collagen production, reduces fine lines and wrinkles, and improves skin tone and texture in just one treatment.

Deep FX

A laser that targets the deep dermal layers of the skin to stimulate a cascade of healing responses that leads to tissue regeneration and new collagen formation.
