

VILLAGE

DERMATOLOGY

Post Liquid Nitrogen Care

1. Areas treated will blister. If the blisters are uncomfortable you may pop the blister, but do not pull off the skin.
2. One to two times a day gently clean areas with mild soap and water, pat dry, and apply small amount of antibiotic ointment or Vaseline to each spot treated. Do this until the treated sites are completely healed.
3. For any discomfort you may take Tylenol.
4. Watch for any signs of infection such as unusual redness, swelling, pain, tenderness or yellow drainage. If any of these should occur please call the office at 877-9773.
